**LIVE WEBINAR PERSONAL INJURY LAW TRAINING SERIES**  
**Terminology and legal process in car accident cases**  
**SKILLS DEVELOPMENT WORKSHOP FOR INTERPRETERS**

This workshop provides an introduction for current and aspiring interpreters to the terminology and legal process in car accident cases. The goal of the seminar is to give interpreters an understanding of:

- The legal process in a car accident case before a lawsuit is filed
- The legal process in a car accident case after a lawsuit is filed
- The interpreters' role throughout the process
- Things to watch out for when you are an interpreter in car accident cases

This workshop will be focusing on car accident legal cases under Colorado law. We encourage interpreters from out-of-state to attend our training as it is important for any interpreters with interest in pursuing legal interpreting to understand the basic legal terms in English first before being able to convey the message accurately into another language. Upon completion of this workshop, participants will receive a Certificate of Attendance from Colorado Language Connection.

***"When an interpreter becomes my client's voice, it's important that they understand how their job is affecting the legal process." – Attorney Lisandra***
